

CURRICULUM VITAE

CV AP

Name: Adina Cristina Pall
Contact: Mobile: 53 84 14 35
E-mail: ap@fishlab.dk

Language: Fluent in English writing, reading and speaking
Advanced level in Danish writing, reading and speaking
Native language: Romanian

Qualifications: Experience with laboratory and field work
Long-term experience with data work in Denmark's Environment Portal (WinRambi, STOQ) and PlanktonSys

Education:

<i>Period</i>	<i>Institution</i>	<i>Diploma</i>
2013-2015	Business Academy Aarhus	Bachelor's in agriculture and Environmental Management
2010-2013	Business Academy Aarhus	AP graduate in Agro Business and Landscape Management

Courses and ringtests:

<i>Period</i>	<i>Course and ringtest description</i>
October 2020	Participation in 'Ringtest in horse parasites' held by DTU - Technical University of Denmark
April 2020	Developing and participating in "Ringtest for påvisning af bændelormæg"
March 2020	Developing and participating in "Ringtest for påvisning af blodorm"
October 2019	Participation in 'Ringtest in horse parasites' held by DTU - Technical University of Denmark
May 2019	Participation in "Marin fauna – collection and species determination" held by Aarhus University, Institute for Bioscience
March 2019	Developing and participating in "Ringtest bændelorm 2019"
October 2018	Participation in 'Ringtest in horse parasites' held by DTU - Technical University of Denmark
January 2018	Participation in 'Ringtest in horse parasites' held by DTU - Technical University of Denmark
May 2017	Participation in 'Ringtest for detection of horse-parasite eggs in faeces. Method: McMaster or modifications of the McMaster method' held by DTU - Technical University of Denmark
April 2014	Participation in 'Sampling of soil' held by VIA University College, Horsens
April 2014	Participation in 'Sampling of groundwater' held by VIA University College, Horsens
2010-2016	LærDansk Aarhus, modules 1-4

Professional experience:

Year	Company	Position	Description
2012 - present	Fishlab/Hestelaboratoriet	Agriculture and Environment technician	Data work in Denmark's Environment Portals (STOQ and WinRambi) Marine benthic invertebrate investigation, sorting and biomass Lab work Field work Forming and updating the company's management system in accordance with DS/EN ISO/IEC 17025:2005 and 17025:2017

Selected professional references:

2020	Production of worms containing protein and omega-3 fatty acids for fish feed. Culturing bacteria on TCBS-Agar plates. Worms will be produced and tested by Fishlab as feed for fish in cooperation with Aller Aqua A/S, Venøsund Fisk og Skaldyr ApS, Maximus/Sashimi Royal and Aarhus University. The project is funded by the Danish Fisheries Agency.
2020	Marine, bottom dwelling animals sample processing (sorting, biomass determination) for 4 samples from Venøsund. The work was done for WSP.
2020	EU-tender: "Udførelse af opgaver under Miljøministeriets nationale overvågningsprogram for vandmiljøet og naturen samt § 3-kortlægning". Task for the national surveillance program for the aquatic environment and nature, delaftale 25, " Marin blødbundsfauna ". Environmental surveillance of marine, bottom dwelling animals . Sample processing (sorting, biomass determination) and participation in data entry in Danmarks Miljøportal - WinRambi. Working with 8 marine stations for Miljøstyrelsen Fyn and Miljøstyrelsen Sydjylland and Midtjylland. In collaboration with RUF Dykkerservice.
2020	EU-tender: "Udførelse af opgaver under Miljøministeriets nationale overvågningsprogram for vandmiljøet og naturen samt § 3-kortlægning" Task for the national surveillance program for the aquatic environment and nature, delaftale 24 " Vegetationundersøgelse i søer ". Environmental surveillance of submerged water plant investigations. Data entry in Danmarks Miljøportal – STOQ. Working with 7 lakes for Miljøstyrelsen Sjælland and Miljøstyrelsen Sydjylland.
2020	Forming of the management system in compliance with DS/EN ISO/IEC 17025:2017 for the accreditation of Fishlab/Hestelaboratoriet.
2019-2020	Marine, bottom dwelling animals sample processing (sorting, biomass determination) for 31 samples from Mariagerfjord Vandværk A/S – Kattegat. The work was done for Orbicon/WSP.
2019	Marine, bottom dwelling animals sample processing (sorting, biomass determination) for 18 samples from Musholm A/S. The work was done for Orbicon/WSP.
2019	EU-tender: "Udførelse af opgaver under Miljøministeriets nationale overvågningsprogram for vandmiljøet og naturen samt § 3-kortlægning" Task for the national surveillance program for the aquatic environment and nature, delaftale 24 " Vegetationundersøgelse i søer ". Environmental surveillance of submerged water plant investigations. Data entry in Danmarks Miljøportal – STOQ. Working with 14 lakes for Miljøstyrelsen Fyn and Miljøstyrelsen Sydjylland.
2019	EU-tender: "Udførelse af opgaver under Miljøministeriets nationale overvågningsprogram for vandmiljøet og naturen samt § 3-kortlægning". Task for the national surveillance program for the aquatic environment and nature, delaftale 25, " Marin blødbundsfauna ". Environmental surveillance of marine, bottom dwelling animals . Sample processing (sorting, biomass determination) and participation in data entry in Danmarks Miljøportal - WinRambi. Working with 14 marine stations for Miljøstyrelsen Fyn and Miljøstyrelsen Nordjylland. In collaboration with RUF Dykkerservice.

2018	EU-tender: "Udførelse af opgaver under Miljøministeriets nationale overvågningsprogram for vandmiljøet og naturen samt § 3-kortlægning". Task for the national surveillance program for the aquatic environment and nature, delaftale 25, " Marin blødbundsfauna ". Environmental surveillance of marine, bottom dwelling animals . Sample processing (sorting, biomass determination) and participation in data entry in Danmarks Miljøportal – WinRambi. Working 16 with marine stations for Miljøstyrelsen Fyn, Miljøstyrelsen Midtjylland and Miljøstyrelsen Storstrøm. In collaboration with RUF Dykkerservice.
2018	Forming of the "Quality manual" (Kvalitetshåndbog) in accordance with DS/EN ISO/IEC 17025:2005 for the accreditation of Fishlab/Hestelaboratoriet.
2015 - present	EU tender: Task for the national surveillance program for the aquatic environment and nature, delaftale 30, " Oparbejdning af marin mesozooplankton ". Participation in the investigation of marine mesozooplankton from 2-8 areas: Aalborg Bugt, Aarhus Bugt, Østersøen Arkona, Bornholm, Hirtshals, Løgstør Bredning, Roskilde Fjord, Øresund and Nordsøen. Data entry in STOQ. For Naturstyrelsen Aalborg, Naturstyrelsen Kronjylland, Naturstyrelsen Nordsjælland og Naturstyrelsen Nykøbing. Fishlab.
2015	EU-tender: "Udførelse af opgaver under Miljøministeriets nationale overvågningsprogram for vandmiljøet og naturen samt § 3-kortlægning". Task for the national surveillance program for the aquatic environment and nature, delaftale 25, " Marin blødbundsfauna ". Environmental surveillance of marine, bottom dwelling animals . Sample processing (sorting, biomass determination) and participation in data entry in Danmarks Miljøportal – WinRambi. Have worked with samples 29-42 of marine benthic invertebrates from all stations at Nordsøen and 11 marine stations for Naturstyrelsen Fyn and Naturstyrelsen Nykøbing F. In collaboration with RUF Dykkerservice.
2014	EU-tender: "Udførelse af opgaver under Miljøministeriets nationale overvågningsprogram for vandmiljøet og naturen samt § 3-kortlægning". Task for the national surveillance program for the aquatic environment and nature, delaftale 25, " Marin blødbundsfauna ". Sorting and biomass determination of marine benthic invertebrates from 2 marine stations for Naturstyrelsen Nordsjælland. In collaboration with RUF Dykkerservice.
2013	EU-tender: "Udførelse af opgaver under Miljøministeriets nationale overvågningsprogram for vandmiljøet og naturen samt § 3-kortlægning". Task for the national surveillance program for the aquatic environment and nature, delaftale 25, " Marin blødbundsfauna ". Sorting of marine benthic invertebrates from 7 marine stations for Naturstyrelsen Ålborg and Naturstyrelsen Kronjylland. In collaboration with RUF Dykkerservice.
2013-2018	FP7 research project TARGETFISH involving novel antigens and expression systems for optimal vaccine presentation / uptake, analysis of protective immune mechanisms in efficient fish vaccines, improvement of fish vaccines, methods of mass delivery and field testing. Coordinated by Wageningen University.
2013 - present	Hestelaboratoriet . Laboratory analyses of horse intestinal parasites for Danish veterinarians. www.hestelab.dk
